

EZYFLOOR
PLUS

Premium One Piece Caravan & RV Flooring Solutions

Achieve Superior Strength, Protection
and Improved Durability with EzyFloor Plus

Manufacture First-Class Caravans With EzyFloor Plus

Introducing EzyFloor Plus, the first enhanced, one piece flooring solution with the strength to endure challenging environments and off-road applications. EzyFloor Plus incorporates high quality galvanised steel or aluminium on the underside of the floor to improve the strength, longevity and underbody appearance of caravans and RVs, providing a premium option for customers.

The EzyFloor Plus Difference For Manufacturers

EzyFloor Plus one-piece technology delivers all the benefits of our proven EzyFloor system plus a significant increase in floor strength, while reducing your internal processes. The benefits:

- Eliminate inefficient in-house manual bonding processes. EzyFloor is bonded with a high performance adhesive under controlled conditions using industrial presses to provide confidence in durability of the bond
- Eliminate OHS hazards such as adhesives handling, application and exposure to solvent fumes
- Potentially save on chassis costs by increasing joist spacing
- Enhance showroom appeal
- Just-in-time production scheduling system for on time deliveries
- Reduce material storage requirements
- Minimise warranty claims
- Reduce waste
- Improve customer satisfaction and sales conversions

Unbeatable Benefits For Your End Customers

Provide your customers with a premium caravan or RV that features increased durability and delivers a safer, more comfortable experience. EzyFloor Plus provides the opportunity to **upsell customers** by offering an extensive list of additional benefits:

- Improved quality and durability
- **Virtually zero floor deflection/floor sponginess**
- Improved under floor impact resistance
- Increased fire resistance
- Thermal and acoustic benefits
- No squeaking, creaking or sagging
- No lifting, bubbling or tearing of floor coverings
- Easy to clean metal finish

EzyFloor Plus Material Options

EzyFloor Plus is available with either galvanised steel or aluminium metal sheeting and can be manufactured using a range of plywood materials to suit your specific requirements. Lightweight EzyFloor Plus options are also available (see table below).

Galvanised Steel

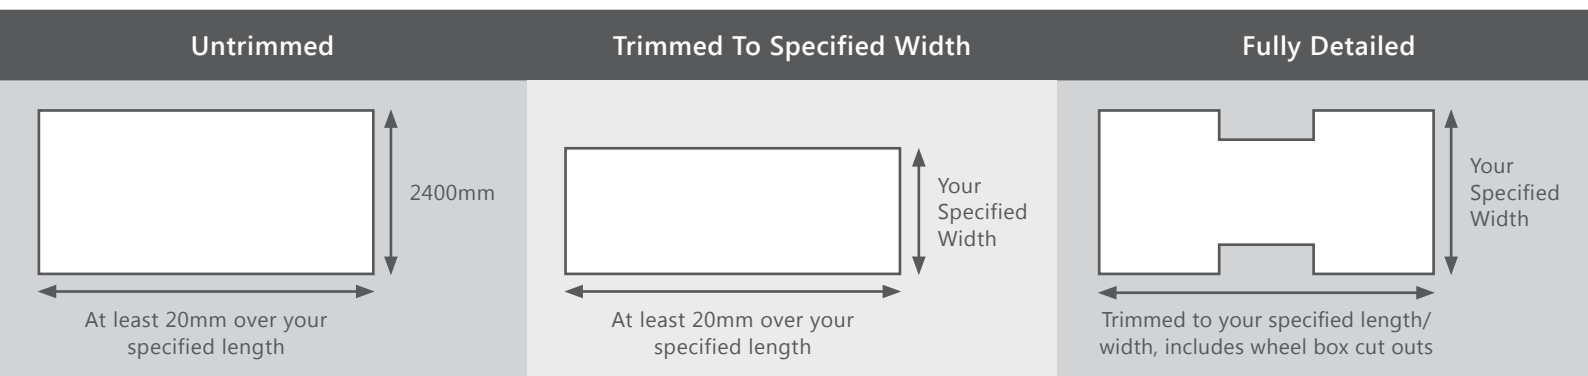

Aluminium

Typical Weights Of A Fully Detailed 19'6" Floor (kg)*					
	Eco P	Eco H	Lite	Premium	Typical Deflection (mm)**
EzyFloor Plus Galvanised	126	112	100	126	0.8
EzyFloor Plus Aluminium	108	94	83#	108	0.8
EzyFloor Plywood	85	72	61	85	2.4

*Based on 2286mm width and 1600x300mm wheel box cut outs **Tested on 400mm span with 100kg weight #EzyFloor Plus Aluminium (Lite) is lighter than standard plywood options

Fully Customisable Solutions

EzyFloor Plus is available in eight material combinations enabling manufacturers to tailor solutions to each van's specific requirements.

Metal Compatibility

Worthington Industries strives to provide relevant information when tailoring customer solutions. The table below provides guidance when selecting an EzyFloor Plus option to best suit your chassis material.

	Chassis Type	
	Galvanised Steel	Aluminium
EzyFloor Plus Galvanised	✓	*
EzyFloor Plus Aluminium	*	✓

*Additional isolation methods recommended where aluminium is used in conjunction with a steel chassis (or vice versa), which may cause a galvanic reaction if moisture is present. You should make your own enquiries as to the suitability and use of this product for your particular application.

Worthington Caravan & RV

A division of Worthington Industries, Worthington Caravan & RV is the leading innovator of plywood and composite panel solutions. Founded in 1975 and servicing the Caravan/RV industry for over 20 years, Worthington Caravan & RV is the trusted name in plywood and composite solutions with a reputation for delivering superior products, competitive prices and exceptional customer service.
