

# EZYPANEL

## Caravan & RV Floor Panel Kits

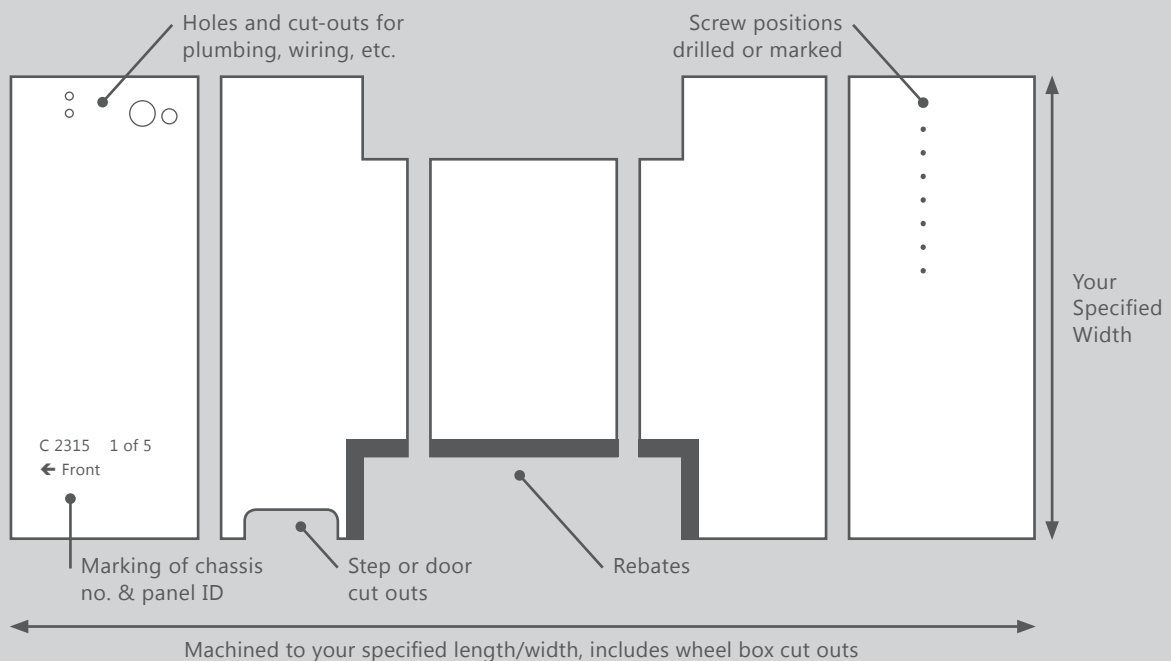

EzyPanel is a high quality Kitted Flooring System that allows manufacturers to build caravans or RVs more efficiently and safely whilst increasing van quality. EzyPanel is fully machined to fit your chassis specifications and uses quality plywood that's suitable for external applications. Manufacturers can realise the benefits immediately:

- **Save time** with floors that are completed in minutes
- **Increase safety** with a solution that is easy to assemble and lay
- **Deliver a higher quality product** to your customers

## Streamline the Manufacturing Process

EzyPanel is delivered ready to install. The kit of flooring panels are machined and trimmed to chassis length and width, including wheel box cut outs. All panels are then marked with individual chassis identifiers and respective panel numbers for ease of assembly. Additional machining can include:

- Tongue and groove joining
- Wall rebates
- Wheel box rebates
- Plumbing and wiring holes
- Step/door cut outs
- Pre drilling or marking pilot holes
- Line marking for accurate screw positioning

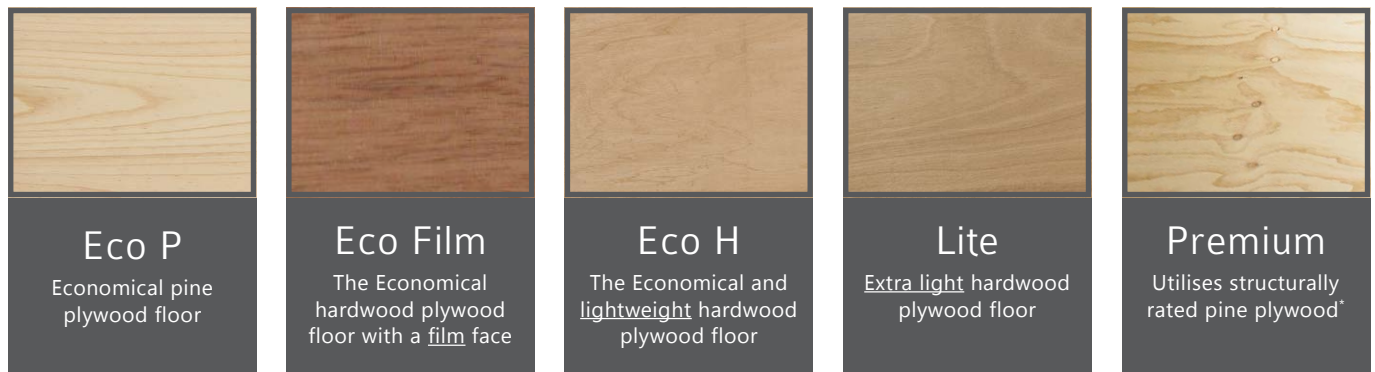

# The EzyPanel Difference

EzyPanel delivers additional real benefits:

- Quick floor installation time
- Improved quality with CNC machined flooring using high quality plywood
- Reduced OHS hazards (less cutting, sawdust, drilling, handling)
- Reduced cutting tools and tool repair costs
- Reduced material storage requirements
- Reduced material waste (no offcuts)
- Improved labour utilisation
- On-time delivery guaranteed
- Australian sourced, made and owned

## Material Options

EzyPanel is available in five quality material types to suit product requirements:

The high quality plywood used in all EzyPanel products is bonded using WBP or A Bond glue lines and all floors include a water-resistant coating on the underside. Eco Film includes a black film to the underside. \*Premium plywood provides increased strength and stability as the plywood is certified to AS/NZS 2269 and quality assured to the JAS-ANZ certification program.

Indicative Weights Of EzyPanel Plywood Sheeting (kg)**				
Eco P	Eco Film	Eco H	Lite	Premium
18	19	16	13	18
